

Proxy Aviation Receives Congressional Visit from Congressman Roscoe G. Bartlett

Germantown, Md. – November 4, 2010 – Today Congressman Roscoe G. Bartlett (R-6-MD) toured Proxy Aviation Systems production and operations hanger to view, first-hand, the optionally manned airframes and ground control stations which Proxy Aviation has developed. In doing so, Congressman Bartlett and his National Security team, accompanied by Mr. Warren Soloduk (Proxy Aviation Systems-CEO), had the opportunity to engage with Proxy's staff directly about their products, capabilities and business climate.

About Proxy Aviation Systems, Inc.

Proxy Aviation Systems is a pioneer in optionally manned aircraft and multi-aircraft cooperative flight control systems. Proxy's solutions can be adapted to a wide range of existing piloted aircraft and Unmanned Aerial Vehicle (UAV) platforms and allow a single 'mission commander' to manage multiple aircraft simultaneously. Founded in 2003, Proxy Aviation is headquartered in Germantown, Maryland. For more information, visit www.proxyaviation.com.

Congressman Roscoe G. Bartlett speaks with Proxy Aviation Systems CEO Warren Soloduk at the Proxy Hangar in Gaithersburg, MD.
